Subject: inquiry about community scholars program

Dear Monica,

I would like to know more about the program. I work for the DPH in the Amherst Drug Lab. Therefore I currently live in Western MA and want to know if all the courses offered in this program are on the BU campus. And if so, can an employee who is accepted into the program and works days, be allowed to attend classes during the day? Without making up the hours? What about someone who works in Western MA and would need to travel some distance to get to the classes? Is there a similar program for people who work for the DPH but do not live around the BU area?
Thank you.

Sincerely,
Rebecca Pontes
